Spotlight on our Members

Jeff and Austin Miller are the father and son team that makes up Trusted Contracting. Together they work throughout the Black Hills area helping a variety of customers with their excavation needs. Those needs include: driveways, building pads, basements, underground utilities, drainage, and more. Over 30 years of experience qualifies them to handle nearly any job a customer may have.

Trusted Contracting was formed in 2017. Prior to that formation, Jeff owned and operated Jeff Miller Construction. This Huron based company worked all over eastern South Dakota, primarily on state highway jobs but also working a great deal with the public on a variety of jobs. While growing up, Austin worked for his father's company, learning from a young age the importance of working hard, as well as the skills and knowledge to work efficiently. After a move West River, the two decided to combine their skills and experience to create Trusted Contracting.

The principle of trust between a customer and contractor is critical, that's why Jeff and Austin named their company after it. Customers can be assured that when they hire Trusted Contracting, they will get high quality work done on time and on budget.
